

Hampshire Model WF
Insulated Steel Raised Panel Garage Doors

**Natural Wood Appearance and
an Energy Efficient R-12 Rating**

World Class Quality
Local Availability

Three layer construction with a CFC-free polyurethane core and full 26 gauge G-60 galvanized steel skins inside and outside

- 1-3/8" thick steel sandwich construction using a polyurethane insulating core with an R-value of 12
- Durable 2-coat baked-on polyester paint finish on both sides of door, with a clear UV resistant top coat on the exterior
- Sections have a thermal break and dual weather seal between them for tight closure and energy efficiency
- Choice of three wood finishes gives you the rich look of wood without the cost and trouble of maintenance

Window Options

Wide range of styles including long panels available. See Hampshire 138 literature for a comprehensive list

Note: Window inserts are painted for a solid color match, but not a wood finish match
